Vision:

Because of partners like you the celebration of our 60th anniversary is going to be even more special.

As we give God the glory for all that he has been and done through our ministry over the past 60 years, we fully understand that only the surface has been scratched. That's why we have extended this meaningful opportunity for you to participate and partner with us on our grandest endeavors in celebration of this most special occasion.

Please know too, that your partnership and participation will go down in our history as the seeds sown that led to the Creation of the brand new Joshua Generation Community Center located at 4748 West Martin Street!

This long awaited center will give us the space and the accommodations needed to better serve our west side neighbors with the faith based educational and mentoring programs that are most needed and have been a part of our vision for years. Focusing on such needs as anger management, conflict resolution, career planning and goal setting will be an opportunity to make a far reaching and practical impact with our neighbors that will last for generations to come.

Aimed at reducing teenage illiteracy, neighborhood gang activities, teenage pregnancy and the multiple components that cause low self-esteem; our strategic programs will focus on both practical and spiritual approaches necessary for solving the most pressing problems within our community. With your help, the Joshua Generation Community Center will be home for one of the most dynamic GED training, after school care and mentoring programs in our area.
